The ACTION-DRIVEN Tea Party

www.SpokaneTeaPartyPatriots.com

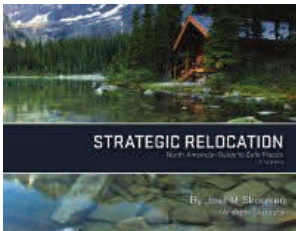

Proudly presents 5 renowned speakers on today's most timely topics:

Joel Skousen

**"What are the Real Threats in the World
How to Prepare for Them
A World Affairs Briefing and Preparedness Lecture"**

Joel M. Skousen is a political scientist by training, and a political commentator, non-fiction Survivalist author, and retreat consultant who specializes in preparedness topics, particularly survival retreat and fallout shelter design and construction, as well as in what he calls "strategic relocation".

John Jacob Schmidt

"Preparation, Unification & Consolidation of Efforts"

JJS will address specific tactics and strategies that will support the tenets of Fiscal Responsibility, Constitutionally Limited Government, and Free Markets. *Presented on the premise as if we, as a nation, have not yet passed the point of no return in our social, political, and economic decline.*

The second component of the presentation is a 'Plan B' to begin planning and developing a response among the leadership now – a plan that we can, should, and will implement when tyranny or socio-economic decline reach their full maturity or effects.

Tim Eyman, Mike and Jack Fagan - The Initiative Process; 'The' Most Important Tool for Patriots

The initiatives **Voters Want More Choices** have presented to WA State taxpayers over the past 13 years **have resulted in \$26.06 billion in tax savings** . . .

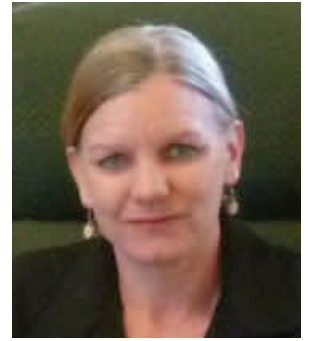

Their present **initiative I-1325** will ensure permanent protection from higher taxes- *but it has to get on the ballot.* **Tim, Jack and Mike are effective political activists working on behalf of Washington State taxpayers. Learn from these men and take back your own state!**

Jennifer Fielder, Montana State Senator

#BiggerThanBundy - #TransferPublicLands

At statehood the federal government promised all newly created states that it would transfer title to the public lands to the states. That promise was honored with all states east of Colorado but not honored for the 11 western states. Why the difference?

“There is a distinct difference in the way federal agencies are managing the federal lands today”. They are **“hamstrung with conflicting policies, politicized science and extreme financial crisis at the national level. It makes it impossible for these federal agencies to manage lands responsibly anymore.”** What happened in Nevada is really just a symptom of a much larger problem.

Cecily Wright, Northwest Grassroots Education Director and Washington State Coordinator; Tea Party Patriots

“Understanding the Hegelian Dialectic - How the Media Mesmerizes Mass Populations”

This training provides one of most important understandings to help free people of media manipulation so as to recognize the truth.

Dialectics is a tool to understand the way things are and the way things change. **Understanding dialectics is as easy as 1 - 2 - 3.**

1--Everything (every object and every process) is made of opposing forces/opposing sides. 2--Gradual changes lead to turning points, where one opposite overcomes the other. 3--Change moves in spirals, not circles. These are the three laws of dialectics according to Frederick Engels, a revolutionary thinker and partner of Karl Marx, writing in the 1870s in his book *Dialectics of Nature*.

Engels believed that dialectics was "A very simple process which is taking place everywhere and every day, which any child can understand".

Let's just say — once you understand, FOX News will look more like Faux News!
